*Mentoring the Next Generation to Reach the Nations*

MTEC INTERNATIONAL

Volume May 2015

**Sunday  
September 20,  
2015  
MTEC Open  
House  
1pm to 5 pm  
Come on up!!!**

*There is a God  
He has a Son  
His name is  
Jesus*

*He loves you  
He died for you*

*He rose again*

*He has  
prepared a place for  
you to be with Him  
forever*

*He wants all  
to hear His story*

*He will return again*

***Our trip to Thailand was a true miracle to behold.  
A group composed of students and adults from Thailand, China, Indonesia, and America  
came together and formed a TEAM because of your prayers.  
We completed an Aquaponic system from the ground up in only 8 days in the Thai summer heat.  
Again your prayers were key to our success as not a single team member got sick or was injured.  
Praise God! Here is how your prayers were answered:***

***We were so welcomed  
by the head family of the village***

***A site was established  
to build the system***

***All the supplies we  
needed were delivered on time.***

***Friendships formed so quickly and we became  
a team by the second day.***

***Wonderful men from the village  
made cement and put in  
pillars to hold the roof.***

***While cement dried the floating raft  
system was measured and drilled to  
hold the plants.***

*Colleen Beck from Seed Aquaponics and Engineer Steve Dristas discuss how to hang the shade cloth.*

*Shade cloth hung to protect fish and plants from the blazing Thailand sun.*

*Swirl Filter piped and ready to go.*

*We needed bamboo to cover the piping so Pi Tom grabbed her machete and taught me how to carve bamboo.*

*Carol Conley, my prayer partner of 30 years, painted all the rafts to match the bamboo surroundings.*

**Completed Aquaponic System!**

*Our Allegheny College students had an amazing cross cultural experience living in the village of Wang Pa Poa. We slept in tree houses with straw mats for beds. The team worked so hard and showed great grace to one another. They came to work and serve and I am so proud of them. They all major in Environmental Science or Engineering and will receive 4 credits from Allegheny College for their work. After our work was completed we took a day to ride elephants and just hang out. More on Thailand next month.*
